PROFESSIONAL EXPERIENCE

Jr Mern Developer

12/2024 - 03/2025

Kurm Infotech

Surat, India

- Developed responsive and modular UI components using React.js and Tailwind CSS for an Institute Management System (IMS) featuring Admin, Faculty, and Student dashboards.
- Integrated REST APIs for real-time data management, and handled routing, state management, and form validations for a smooth user experience.
- Closely collaborated with the backend team and contributed to backend logic using Node.js, Express.js, and MongoDB during feature integration and bug fixing.
- Collaborated with backend developers and contributed to server-side logic using Node.js, Express.js, and MongoDB.

ReactJS Developer Intern

01/2024 - 04/2024

Lynx softech

Surat, India

- Developed interactive and responsive UI components for a stock market analysis platform using React.js and Tailwind CSS.
- Integrated Google Charts to visualize real-time and historical stock data, enabling users to analyze market trends, volume, and volatility effectively.
- Implemented multiple chart views (yearly, quarterly, monthly, weekly) to support both short-term and longinvestment decision-making.
- Collaborated with the backend team to consume APIs and display dynamic data.
- Improved user experience with clean layouts, reusable components, and conditional rendering.

Javascript Developer Intern

07/2023 - 08/2023

Toshal Infotech

Surat, India

- Gained practical experience and proficiency in HTML, CSS, and Bootstrap through hands-on projects and guided learning.
- Collaborated with senior developers to create responsive and visually appealing web interfaces.
- Practiced DOM manipulation and basic interactive UI elements using vanilla JavaScript.

PROJECTS

Jewelry E-commerce Website (GIVA-inspired) ∅

- Developed a full-featured jewelry e-commerce site inspired by Giva, with both user and admin panels.
- Implemented user authentication using JWT and protected routes for secure access.
- Built product listing with filters, sorting, search, and dynamic product detail pages.
- Integrated shopping cart, wishlist, and secure Stripe-based payment gateway.
- Created admin dashboard for product management, category control, and order tracking.
- Used Cloudinary for image upload and storage.
- Responsive UI built using Tailwind CSS for mobile and desktop views.

IMS institute 🔗

- Developed dynamic and responsive frontend components for features like attendance tracking, student inquiries, notices, event management, and more.
- · Created user-specific dashboards (Admin, Faculty, Student) using React.js with clean modular structure.
- Used React Router for seamless navigation across user panels.
- Managed UI state and props efficiently to ensure a smooth user experience.
- Styled components using Tailwind CSS for consistency and scalability.
- Collaborated with backend team to integrate REST APIs and ensure data synchronization.

Video Calling Feature using Metered Video SDK ∅

- Integrated Metered Video SDK to enable secure, high-quality video calls between users.
- Built UI components for video rooms, join/create room functionality, and media controls (mute, camera toggle, leave call).
- · Ensured responsive design using Tailwind CSS, optimized for both desktop and mobile views.
- · Handled edge cases such as permission denial, call drop, and network reconnect logic on the frontend.

SKILLS

- Frontend: React.js, JavaScript, HTML, CSS, Tailwind CSS
- · Backend: Node.js, Express.js
- Databases: MongoDB, PostgreSQL, MySQL
- · Tools: Git, Postman, GitHub Copilot, Figma

CERTIFICATES

- Scaling with Google Cloud Operations

 Ø
- · Infrastructure and Application Modernization with Google Cloud ∂
- Exploring Data Transformation with Google Cloud ∂
- Introduction to Large Language Models ℰ
