EXPERIENCE

Jul - 2022 To Present
Surat, India
Senior UI/UX & Graphics Designer @ Bitrix Infotech
I focus on enhancing product quality through code optimization while maintaining a consistent brand identity. I design a variety of graphics, characters, and websites, and continuously strengthen my teamwork and collaboration skills.

Oct - 2018 To Jun - 2022
Surat, India
Web & Graphics Designer @ Soften Web Media
I craft stunning user interfaces (UI) for websites and apps, while also creating compelling brand identities, illustrations, and marketing materials. Additionally, I develop front-end websites using HTML, CSS, JavaScript, and other modern technologies.

Apr - 2015 To Feb - 2019
Surat, India
Center Executive @ Sai Bhavi News Agency
In Surat city, I managed the distribution of newspapers and leaflets to vendors within a designated area. Additionally, I served as a cashier at the agency's central office.

Jan – 2018 To Sep – 2018
Surat, India
Web Designer Intern @ Kintu Designs
During my college studies, I successfully completed a professional internship where I developed skills in UI/UX design, graphic design, website development using grid systems, and hybrid app development with the Ionic framework.

Apr - 2013 To Feb - 2015
Surat, India
Center Executive @ Gujarat Guardian
I worked as a center executive with various responsibilities, including managing the newspaper distribution network, improving sales, and cashiering. Additionally, I served as a dispatch executive, handling out-of-town deliveries via train, truck, and taxi.

PROJECTS

Coinremitter
It's a crypto payment gateway where I design impactful websites, merchant panels, and admin panels with intuitive UI/UX. I develop the front end using Bootstrap and Tailwind CSS frameworks.

Pagarguru
It's a leading Attendance, Salary, and Payments Management software. I developed its front end using Bootstrap, OWL Carousel, and JavaScript, ensuring it is fully responsive and browser-friendly.

Preschool Kids Game
It's a kids' learning game app where I create level concepts, structure the gameplay, and design detailed wireframes. I use engaging color schemes, characters, and graphic elements to bring the games to life.

Brain Game: Brain Test Puzzle
It's a brain puzzle game app where I design engaging riddle experiences with a consistent UI. I use calm color schemes and character graphics to create an impactful UX, and I'm also responsible for game optimization.

Smartlink
It's a Web3 escrow gateway for eCommerce. I design and develop its merchant and admin panels, prioritizing usability and efficiency to enhance the eCommerce experience.

Diamondsutra
It's a traditional diamond jewelry website where I design an eye-catching website and an easy-to-use admin panel using Bootstrap, JavaScript, and other technologies. I also ensure the site is mobile-friendly and browser-compatible.

Regumsoft
It's an IT company website where I design impactful brand identities, engaging websites, and creative sections such as platform banners and user-friendly quotation pages.

Arteel
It's a B2B company website where I design websites that align with brand guidelines and reflect the brand's identity. I apply minimalist design principles to enhance the UX and highlight key information effectively.

EDUCATION

M. Sc. Of Computer Application @ V.N.S.G.U
April - 2018 In Shree Ram Krishna Institute With 6.2 CGPA.

B. Sc. Of Computer Science @ V.N.S.G.U
